- Ad Loop and Attract Screen Player
- Print on Demand Capability
- Full Mobile Integration Through, SMS, Beacons, QR codes and More
- Multi-Language Support in Ten Languages
- Interactive Map Guidance
- Remote Management using Mzero Manage
- On-Screen Search Feature

SCREENSHOTS

MENU

Once a category is selected, the user will be shown a menu of businesses or individuals within that category (shown, left). Once selecting their destination, the user will be redirected to a detail page with detailed wayfinding information to locate their destination.

ENCLOSURES

Meridian Kiosks offers a full line of stand alone and wall-mounted kiosk enclosures. Looking for something special? Meridian is a fully integrated end-to-end kiosk manufacturer with in-house design and engineering teams to design and develop custom enclosures to meet specific design needs.

SEARCH FEATURE

The search feature on DirectMe allows users to search for the name of the individual or business they're looking for. Once located, clicking on the destination's name will populate the detail page shown below.

THRU-GLASS TECHNOLOGY

With thru-glass technology users can connect with directory content 24/7. Thru-glass technology enables users to interact with digital directories from behind a glass wall or window using Meridian's state-of-the-art touch-film technology.

INDUSTRIES

GOVERNMENT BUILDINGS

CORPORATE OFFICES

HEALTHCARE & HOSPITALS

HIGHER EDUCATION

DETAIL PAGES

DirectMe detail pages include detailed location information for the selected individual or business. Information includes: name, address, suite number, phone number and interactive map guidance.

FEATURED KIOSK MODELS

32" RTS

42" PRESENZA

42" I-SERIES

32" NAVIGATOR

CAPABILITIES

MOBILE INTEGRATION

MzeroDirectMe integrates seamlessly with Meridian's proprietary interactive mobile application. The mobile application enables users to engage with the digital directory content on their mobile devices and take the information with them. InterActMobile is available in the iTunes Store and on Google Play.

VOIP CALLING

VOIP capabilities allow users to contact the business or person they are visiting, inform them that they have arrived and clarify any details regarding the meeting. MzeroDirectMe VOIP SIP service provides easy connection from the kiosk to outside phone systems.

PRINT-ON-DEMAND

For years organizations have relied on expensive brochures and rack cards to communicate with visitors. With MzeroDirectMe's Print on Demand feature, visitors can search for the person or business they're looking for, display the information digitally and with one touch, compile and print the information.

ABOUT MERIDIAN KIOSKS

FROM CONCEPT TO COMPLETION

Meridian is a self-service industry pioneer, leading in innovation and precision since being founded in 1999. A fully integrated manufacturer,

Meridian designs, engineers, fabricates, assembles, deploys and supports self-service solutions from its 13-acre headquarters in North Carolina. Meridian is an ISO 9001:2008 certified company and UL self-certify facility. With processes from software development to powder coating to quality control completed in house, Meridian proudly offers American-made interactive kiosks to a global marketplace.
