SLATE DS

MERIDIAN

Dual-Sided Digital Display

Scanner Integration

HD Camera

Payment Ready

Proximity Sensor

Designed to maximize engagement

The Slate DS delivers high-impact digital content from both sides of the kiosk, allowing you to reach multiple audiences at once. Available with dual or single-screen configurations, the larger display area creates greater visual impact, while an optional device panel provides flexibility for scanners, payment devices, and other peripherals.

Components Available

Scanner
Payment Devices
HD Camera
Proximity Sensor
