

# mzero<sup>o</sup>

The Mzero Software Ecosystem

It all starts with a solid foundation.

## mzero<sup>o</sup>platform

MzeroPlatform offers a secure browsing environment with a high-spec user interface that is ideal for any business. It is the foundation on which customized kiosk software is built.

### mzero<sup>o</sup>manage

#### Remote Kiosk Management.

Designed to monitor multiple kiosks in remote locations, MzeroManage helps keep your kiosks running at peak performance.

MzeroManage is ideal for organizations requiring system security and remote management.

### mzero<sup>o</sup>create

#### Custom Kiosk Software.

Designed to help produce custom solutions, MzeroCreate provides a suite of developer tools that allow full customization of our platform.

MzeroCreate is beneficial to businesses with multiple kiosks requiring custom configuration.

Customize Your Kiosk. The Options are Limitless.
